Work Experience

Junior Frontend Developer

Oct 2023 — May 2025

RED Software House, Wrocław

- Delivered front-end and campaign pages for 10+ client projects using JavaScript, React, Next.js, and Gatsby under tight deadlines.
- Migrated 12 core pages to a component-driven React/Gatsby stack, cutting editorial turnaround time by 30%.
- Authored 28 unit tests (Jest & React Testing Library), increasing coverage from 22% to 48%.
- Executed 8 GSAP animations across campaigns and optimized initial load times by 12%.
- Refactored key modules into component-driven patterns and applied a 7-1 SCSS structure to simplify styling.

Frontend Developer Intern

Sep 2022 — Nov 2022

ltransition

- Developed reusable React components and UI patterns using Material-UI; completed sprint tasks during a **3-month** internship.
- Completed 4 learning projects during the internship, delivering production-ready React components and UI demos; worked independently and met sprint timelines.
- Improved component reusability by defining naming and folder conventions that simplified onboarding.

Projects

Socialman — Refactored legacy jQuery into a component-driven JavaScript implementation; consolidated ~6,000 lines down to <1,000 and improved rendering performance by ~40%.

RED Software House site — Ported 12 core pages to React/Gatsby, introduced 7-1 SCSS structure and GSAP animations; enabled CMS-editable pages and reduced editorial turnaround by ~30%.

Wago Social Network — Developed features (infinite scroll, post management, filters, search, profile editing) using Redux Toolkit, React Query and Axios to improve feed responsiveness and user engagement.

Opera ad campaigns — Built campaign sites with vanilla JS/HTML/CSS under tight deadlines; a global campaign reached ~50M impressions on Twitter.
